Manitoba Travel
Tropical Medicine Services

Health Network
INTRODUCTION

We are very pleased to offer the Manitoba 11th Annual Travel Health Conference, with a comprehensive overview of the latest research in travel medicine, immunizations and infectious diseases, as well as the most current information on Canadian travel health & immunization guidelines. We are very fortunate to have access to speakers of international, national and local acclaim who are talented and knowledgeable in the field of travel medicine. This conference is intended for all those who practice or are interested in the discipline of Travel Medicine and Infectious Diseases; in particular travel medicine health care practitioners, medical practitioners, nurses, pharmacists, and students who practice travel medicine within fields of primary care, occupational medicine, Infectious Diseases and Tropical Medicine, emergency medicine as well as public health medicine.

LEARNING OBJECTIVES

Goals
By attending the Manitoba 11th Annual Travel Health Conference, participants will be able to:
- Enhance their ability to promote safe & healthy travel experiences
- Provide informative & relevant services for the prevention and management of travel acquired conditions and illnesses
- Engage in effective communication and collaboration between colleagues, organizations and the populations being served
- Network with expert speakers, fellow colleagues and exhibitors

Objectives
Upon completion of the conference, participants will be able to:
- Identify the role of the Committee to Advise on Tropical Medicine & Travel (CATMAT) and recognize how to locate and apply evidence based travel health recommendations
- Recognize travel clients’ perception and tolerance of risk as it relates to pre-travel recommendations and how best to make risk assessment decisions
- Summarize the new Regulated Health Professions Act (RHPA) of Manitoba and identify innovative advancements in travel health, at international, national and provincial levels
- Develop and integrate approaches to the pre-travel risk assessment of special travel populations, i.e. the VFR traveller (those visiting friends & relatives) and those preparing for extreme & remote travel
- Discuss the latest epidemiology, prevention and management of major arthropod vector diseases, such as yellow fever, malaria & dengue fever
- Counsel travellers on the prevention and management of traveller’s diarrhea
- Describe to their clients how to locate medical care while travelling abroad
- Define and describe the provision of compassionate care within the context of travel health
Thursday, April 11, 2013
