

APPENDIX E - Appointment Reasons Bank

Appointment Reason Definition:

To support every team member's role in huddles inclusive of the following:

- Assist team to anticipate whether the entire appointment or only a portion of the appointment can be completed by someone else from the care team
- Assist team in room preparation by ensuring all needed supplies are in place for the appointment
- Assist team in ensuring all aspects of the visit including appointment flow, ER consults, DI reports, lab, and consultations proceed smoothly without delay
- Assist team with rooming the patient (i.e. chaperone is required at the appointment, shoes off, weight check, VS, urine sample prior to visit, etc.)
